Subject Index to Volume 19

- Acephate**
human exposure to, 782
- Acid-mine drainage**
effects of, on stream, 241
- Aldicarb**
analysis of risk from exposure to, 447
- Alkoxyresorufins**
as monitors of environmental contamination, 157
- Amino acids**
changes in, in mussel, exposed to pollutants, 816
- Ammonia**
toxicity of, to fish, 40
- Atrazine**
effects of, on algae, 617
- Birds**
selenium in mallards, 374, 835
inhibition of growth by Al, Ca, and P, 457
metals in pelagic, 704
effects of metals on Pekin duck, 886
effects of ingested petroleum on mallards, 898
effects of oil slick on gulls, 902
effects of dicofol on mallard eggshell, 907
- Boron**
toxicity of, in salmon, 366
- Bromoxynil**
photochemistry of, 325
- Cadmium**
effects of Mn on toxicity of, 118
influence of salinity and temperature on toxicity of, 124
sensitivity of, to bivalves, 338
effects of, on shrimp, 341
influence of, on fish, 348
effect of pH on uptake of, on cyanobacterium, 479
effects of, on chick bone, 653
effects of, on clams, 686, 691, 699
accumulation in sea stars, 858
effects of, on marine gastropod, 863
effects of, on *Chironomus* larvae, 872
effects of, on shrimp, mussel, worm, 878
- Carbaryl**
effects of, on zooplankton, 77
- Chlorinated pesticides in foodstuffs in Hong Kong**, 291
- Chromatography**
methods for pesticides in air and water, 583
of volatiles in eggs, 593
of fumigants in foodstuffs, 921
- Coal leachates**
effects of storage on organic content, 249
- Copper**
effects of, on macroinvertebrates, 361
effects of, on chick bone, 653
effects of, on cuttlefish, 797
- Daphnia**
toxicity tests, 72
toxicity of Na laurylsulfate on *Ceriodaphnia*, 513
- 2,4-Dichlorophenoxy acetic acid**
persistence of, in power line rights of way, 572
- Dicofol**
determination of, in eggs, 154
effects of, on mallard eggshell, 907
- Diffubenzuron**
effects of, on clam, 35
- 1,1-Dimethylhydrazine**
effects of, on immune function regulation, 148
- Endrin**
toxicity inhibition by antioxidants, 302
- Fish**
uptake of hexachlorophene by, 1
uptake of hydrocarbons by, 10
toxicity of ammonia to, 40
polychlorobiphenyls in, 49
contaminants in, 101
effects of tributyltin in, 235
effects of pesticides in, 275
effects of Kepone® on lampreys, 307
influence of Cd and Zn on, 348
toxicity of boron, Mo, and Se on, 366
sublethal toxicity indicators in, 380
exposure of, to 4-chloroaniline, 405, 419
pentachlorophenol in, effects of pH, 464
effects of paraquat on, 523
chlorinated hydrocarbons in Canadian, 530
toxicity of uranium mine tailings to, 578
effects of triclopyr on salmon, 610
selenium in bass, 717
effects of acid exposure on, 803
effects of water quality on, 807
- Fluoride**
in herons, 132
- Heptachlor**
toxicity of, to mink, 913
- Hexachlorobenzene**
uptake by minnows, 1
effects of, on mussels, 25
- Hexachlorocyclohexane**
effects of sunlight and temperature, 214
- Hydrocarbons**
uptake of, by fish, 10
in incinerator ashes, 665
chemical marker method for, in waste water, 674
- Kepone®**
effects of, on lampreys, 307
- Landfills**
toxicity of leachates of, 143
- Lead**
intoxication and chelating agents, 185
alkyllead salts and N-transformation in soil, 227
- Manganese**
effects of, on Cd toxicity in *Chlorella*, 118
- Mercury**
in soil and acceptable limits, 221
- Metals**
distribution in *Chironomus* larvae, 84
in crayfish, 94
in biota of Savannah River, 101
lead intoxication and chelating agents, 185
mercury in soil, 221
in incinerator ash, 399
in pelagic birds, 704
influx of, in natural lake, 712
in bass, 717
concentrations of, in freshwater fish, 731
effects of, on Pekin duck, 886
effects of, on feral pigeon, 892
- Methyl isocyanate**
toxicity of, in rats, 314
- Molybdenum**
toxicity of, to salmon, 366
- Mussel watch and molecular marker in hydrocarbon studies**, 263
- Mutagens**
in wastewater sludge, 657
in incinerator ashes, 665
- Mycotoxins**
effects of moniliformin in rats, 433
prevention of, in foodstuffs, 437
- 1-Naphthol**
effects of, on molluscs, 17
- Oil**
effects of crude, to mice, 257
effects of ingested petroleum on mallards, 898
effects of oil slick on gulls, 902
- Organotin**
effects of tributyltin on fish, 235
effects of tributyltin on oysters, 354
effects of tributyltin on toadfish, 854
- Paraquat**
effects of, on fish, 523
- Pentachlorophenol**
effect of pH on, in goldfish, 464
effects of, on Hawaiian workers, 603
- Pesticides**
in mothers' milk, 640
in children, 646
in freshwater fish, 748
- Phenols**
enzyme detoxification of, 543
toxicity of, to crustacean *Asellus aquaticus*, 926
oxidation of, to dioxins and dibenzofurans, 930
- Picloram**
persistence of, in power line rights of way, 572
- Pollution**
monitoring of marine, by mussels, 508
effects of XAD-8 on micropollutants, 551
chemical marker for wastewater, 674
changes in amino acids in mussels exposed to, 815
- Polychlorobiphenyls**
uptake of, by fish, 10
effects of, on mussels, 25

- in striped bass, 49
 - excotoxicological study of, in mouse, 283
 - in Canadian fish, 530
 - effects of, on amphipods, 558
 - effects of, on pond snail, 565
 - in mothers' milk, 640
 - in incinerator ashes, 665
 - microbiological treatment of, 789
 - effects of, on rhesus monkeys, 939
 - assimilation of, mollusc and rat, 944
- Propoxur
 - toxic mechanisms of, 917
- Radiation effects
 - in worms, 164
 - radioactivity in incinerator ash, 399
- Radon
 - in homes and domestic water, 952
- Risk analysis
 - analysis of toxicity data, 447, 597
- Sediments
 - genotoxic components in, 175
- Selenium
 - toxicity of, to salmon, 366
 - in mallards, 374, 835
 - effects of compounds of, on cyanobacterium, 488
 - in birds at Kesterson Reservoir, CA, 495
- in bass, 717
 - in wetlands and waterfowl foods, 845
- Sewage sludge
 - fate of chlorinated compounds in, 428
- Sludge
 - mutagenic activity of wastewater, 657
- Tetraisopropylpyrophosphoramide
 - toxic mechanisms of, 916
- Toxicity tests
 - environmental effects of multispecies-microcosm, 62
 - Daphnia magna*, 72
 - behavioral indicators in trout, 380
 - predicting bioaccumulation potential, 386
 - inhibiting effects of toxicants on enzymes, 395
 - with algae, 518
 - with industrial chemicals, 624
 - with Kraft mill effluents, 680
 - with bovine heart mitochondria, 828
- Trichlorfon
 - effect of, on cyanobacterium, 297
- Triclopyr
 - effects of, on salmon, 610
- Uranium
 - mine tailings and effects on fish, 578
- Vanadium
 - effects of, on rats, 138
- Water
 - herbicides in Canadian, 319
 - effect of acidified, on clams, 471
 - trace levels of pesticides in, 583
 - acid precipitation system for plants, 629
 - mutagenic activity of waste water, 657
 - chemical marker for waste water, 674
 - effects of, quality on English sole, 807
 - radon in, 952
- Worker exposure
 - to lindane, 190
 - to carbofuran, 197
 - to methyl parathion, 205
 - nonuniform deposition of pesticides, 332
 - to pentachlorophenol, 603
 - coverall protection for citrus applicators, 635
 - to acephate, 782
- Zinc
 - influence of, on fish, 348
 - interaction of, with Cd and Cu in tissue culture, 653
 - toxicity of, to fish larvae, 680
